

.csv file title explanations

The following explains the titles of each column in the .csv files that are generated by our sampler. Please refer to (and print out if required) the actual questions from the website.

The .csv file will open in MS Excel if double-clicked in a Windows environment.

If you have a MacIntosh, open MS Excel first and then choose File and Open and open the .csv file.

Case Number

Each person who submitted a response has been given a case number. The case numbers have been randomly allocated to individuals, so there is no meaning to the order. It is not possible to identify any individual by this number. It will be an important part of some of the learning tasks on offer.

Date of Collection

This does not record the actual date of submission, but rather the general period when collected. It will serve us well if a follow up census is performed.

Q01

Lists responses to Question 1

What type of school do you attend?

Responses

Private

Public

Q02

Lists responses to Question 2

Is your school:

Responses

Single sex

Co-educational
